ICONSIAM cost 54 billion baht to build and was opened on November 9, 2018! It is located on the river bank, covering an area of approximately 75,000 square meters. It has two residential buildings and two duplex shopping facilities, integrating shopping, entertainment, dining, and cultural and creative market elements. The mall has specially designated a themed area, SookSiam, to create Bangkok's unique indoor floating market! The entire ICONSIAM consists of two buildings with the design concept of water lanterns, paddles and canopies.
